MADHAVAN

Full-Stack Developer | Software Engineer

Coimbatore • +91 9342258045 • madhavanvairavan3@gmail.com • linkedin.com/in/madhavan-v-55a92b396/

PROFESSIONAL SUMMARY

Results-oriented Full-Stack Developer with a strong foundation in React, Spring Boot, and MySQL. Proficient in building efficient applications using Data Structures and Algorithms, with a proven track record of solving 300+ LeetCode problems. Experienced in designing and implementing real-world solutions, including a freelancer marketplace and a local service platform. Committed to continuous learning and delivering high-quality software.

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, SQL, HTML5, CSS3
Frameworks: Spring Boot, React.js, Node.js
Tools: MySQL, Git/GitHub, Postman, Maven
Core: RESTful APIs, System Design, Data Structures & Algorithms

KEY ACHIEVEMENTS

- Solved 400+ problems on LeetCode, strengthening problem-solving and data structure skills.
- Collaborated with a team of three in an intra-college hackathon to develop a functional solution.

EXPERIENCE

HCL — Software Engineering Intern

- Engineered a full-stack image gallery application aggregating content from 3+ third-party platforms, supporting 500+ media assets with seamless Azure-hosted deployment.

TECHNICAL EXPERIENCE

FLEXORA — Freelance Marketplace Platform

- Architected a marketplace ecosystem utilizing React.js and Spring Boot microservices.
- Built 20+ secure REST APIs for authentication, project management, and freelancer operations, ensuring efficient platform functionality.
- Implemented JWT-based authentication and role-based access control for secure user access.

PIXORA — Image Gallery Platform

- Crafted an image gallery platform using React.js and Node.js.
- Built REST APIs for user authentication and image management.
- Integrated three external image APIs for efficient image retrieval and gallery management.

ATM MANAGEMENT SYSTEM — CLI Banking Application

- Engineered a CLI banking application using Spring Boot with a MySQL backend.
- Designed a secure login system with a 3-attempt lockout policy and automated account blocking.
- Delivered core operations: Balance Inquiry, Real-time Deposits, and Validation-based Withdrawals.
- Built an Admin Dashboard for global account monitoring, user unblocking, and secure account deletion.

QUICKFIX — Local Service Finder

- Created a local service finder application using Java, Spring Boot, and MySQL.
- Built REST APIs for service listings and booking management.
- Incorporated global exception handling and logging to enhance application stability.

EDUCATION

Sri Krishna College of Engineering and Technology
Bachelor of Technology (B.Tech) in Information Technology • CGPA: 7.97/10.0

CERTIFICATIONS

- Infosys: Java Programming Certification, C++ Professional Certification.
- Cisco: Python for Data Science and Network Automation.
